Investments in foreign securities are subject to additional risks such as erratic market conditions, economic and political instability, and currency exchange rate fluctuations. Emerging markets may accentuate these risks. Small cap and Micro cap investments are subject to greater volatility than investments in other asset categories.

The final determination of the source and tax characteristics of all distributions will be made after year-end and reported to you on Form 1099-DIV. Form 1099-DIV, which is mailed after the close of the calendar year, will specify how the distributions paid by a Fund during the year should be characterized and reported on your tax return (e.g. ordinary income, return of capital and capital gain).
