Effective February 27, 2017, the share classes offered and/or fees paid by certain of our Funds were restructured to better align with the needs of our investors. These changes may affect the amount of fees you will pay as an investor. Effective October 1, 2016, as part of the integration of the former Aston mutual funds into the AMG family of mutual funds, the former Aston funds changed names and certain of the AMG funds changed names as well. In addition, many of the Funds also had certain share class name changes. See the Fund's prospectus for additional information.

All investments are subject to risk including possible loss of principal.

Investment income may be subject to certain state and local taxes, and, depending on your tax status, the federal alternative minimum tax. Capital gains are not exempt from federal taxes.

Investments in foreign securities are subject to additional risks such as erratic market conditions, economic and political instability and currency exchange rate fluctuations. Emerging markets may accentuate these risks. Small Cap and Micro Cap investments are subject to greater volatility than investments in other asset categories.
